KAREN FOLEY: On the 26th of September, we have an online Student Hub Live event for new and continuing OU students. And the focus is on key study skills.

This event will give you an opportunity to focus on your own techniques and hear academics' and other students' suggestions. We'll focus on your study space, time management, reading, writing, note-taking, taking care of yourself while you study, and many other important skills that you'll develop as an OU student.

I'll have guests in the studio who will share their knowledge and experience. But most importantly, you can meet other students and talk about your own tips and techniques in the chat room while the event is live.

The event is online, interactive, and open to everyone. And you can find out more on the website, which is also where you access the event when it is live.

If you have a question you'd like to ask in advance, just email us. And if you can't attend on the day, the videos will be available on catch up afterwards with all the other sessions we've had in the past on our YouTube channel.

I hope you can join us on the 26th of September.
