Pre session polls

What level of study are you?
• Access
• Level 1
• Level 2
• Level 3
• Postgraduate

What would you consider is your main area of study?
• Arts
• Languages (English & other)
• Social sciences
• Business and law
• Science
• History
• Engineering or technology
• Maths
• Health sciences
• Education
• Sports

Have you been to any student hub live online events before?
• Yes, any earlier this year (2022).
• Yes, any last year(2021) or before.
• Never live, but have listened to / watched one or more recording.
• No, even though I was aware of SHL events.
• No. I wasn’t aware of SHL before now.
What are student hub live online sessions?

- All student hub live sessions are non modular and focus on skills relevant to study at university level.
- Polls are anonymous to other participants but the chat box will have your logged in name associated with your comments during the live session.
- All online sessions are recorded and available to view on catch up on a public facing website.
- Slides are available to download during the session (not accessible on mobile devices) and from http://studenthublive.open.ac.uk/.
student hub live is the OU’s live online interactive platform to support academic community

Rob works on a range of under-graduate and post-graduate modules and sits on the Boards of Study for the Open University Business School. Rob’s passion is in making live online sessions fun and effective.

Amanda has been an OU Law School tutor at levels one and two since 2009. During that time, she has discovered the pleasures and pitfalls of being an OU student by studying for an MA in Online and Distance Education, worked as an Educational Advisor, written tutorial, skills, and research materials.
Workshop

• This is going to be a structured workshop to help you get thinking
• We’ll look at some of the key differences between TMAs and EMAs (or other end of module assessments)
• We’ll give ideas on ways to approach them
• We’ll give some generalised tutor advice
Session purpose

**Is for:**
- Providing some general guidance on approaching Final Assessments
- Looking at key point and practicalities
- Provide a space to share ideas and connect with other students

**Is not for:**
- Telling you what you HAVE to do
- Providing any module specific advice
Please be aware

- These sessions are large scale
- They are very busy
- There is lots of interaction
- They are not the same as other tutorials
- You can maximise slides on your own screen by clicking the icon
Initial poll

What is your main reason for coming along to this session? Please choose the option that fits for you today:

• Study skills for current module(s)
• Study skills for future module(s)
• Connecting with other students
• Gain new ideas
• Responding to recommendation from tutor
• Curious about what studenthublive is
Preparing for your final assessment
Imagine you are running a steeplechase and you have leapt over numerous hurdles along the way. You hear the bell and it’s the last lap, so a few more hurdles and you are finished, you’ve done it all before so what’s the difference? The difference is that that last lap needs extra effort, that’s where the competition will come, that’s where you really need to demonstrate your perseverance and skill. That last lap is your end of module assessment. It’s not the same as the laps you’ve already been round, it is more important, it carries more weight, and you need to be prepared for it. That’s what this session is about, helping you get ready for the final lap of your module and making sure that all the work you put into it is worth it.
What do you want to learn?

Using the short answer poll provided please say what you are hoping to learn from today’s session.

(If you are on a mobile device remember you need to tap into the polling option)

To come back to these slides after completing a poll click on the share pod slides icon.
First thoughts

Have you completed an OU course with a final assessment before?

- Yes (one)
- Yes (two)
- Yes (3+)
- No never!

Please use the poll to select the answer that applies to you.
Next poll

Is your upcoming final assessment an:
  • Exam
  • EMA
  • emTMA

(always check your module > assessment to find out how your assessment works)
This session..

- Is primarily about EMAs / emTMAs and not exams
- A dedicated session about exams was run on May 17\textsuperscript{th} 2022 – to access the recording go to the View past recordings option from this room and then select \textcolor{purple}{exam workshop 17 May}
- \url{https://learn1.open.ac.uk/mod/connecthosted/viewrecordings.php?id=19619&group=0&filter=2}
EMA / emTMA

- We are going to use the term EMA throughout today although to also refers to emTMA which functions essentially the same – e.g. larger final piece of assessed work
- We’ll come back to the difference later
Correct format

• It is imperative that you submit the correct format and it contains everything you need it to. You can’t ask to add something afterwards, if you submit multiple times before the deadline you will overwrite and take full responsibility for this.

• Normally all written work will be in a single document (unless your module explicitly says otherwise).

• Zip files allow for inclusion of other files module specific such as PDF or audio ONLY IF SPECIFIED.
Back up!

• Don’t rely on one single copy on your computer, back it up in places other than here, e.g. the cloud, to email, on a pen drive

• You all have OneDrive as part of Office 365 from the OU

• If something happens to your computer and you lose the single copy there, that is not extenuating circumstances, it is not taking responsibility
Correct version

• If you have multiple versions make sure you name them logically so you know which one to submit
• Check that this is what you have submitted
• Check, check and check again (before submitting, and then use the option to check after submitting)
• One one module this year I failed 5 students who submitted the wrong file for their EMA!
Time management

- First things first – when is your EMA due?
- How much time will it take to do?
- Have you allowed contingency time for anything going wrong?

- Consider planning quite tightly using some of the resources available at https://help.open.ac.uk/planning-and-prioritising
Example tools- foursquare grid

<table>
<thead>
<tr>
<th></th>
<th>Important</th>
<th>Unimportant</th>

Polling text

Which of the following time management tools have you used during your study this year?

• Foursquare grid
• Detailed time grid
• General time grid
• Other
• None – I just manage my time well 😊
• None – I haven’t really managed my time well 😞
Create your own deadline(s) to work to at least a couple of days before the fixed deadline. Aim for this. Don’t work knowing that you won’t keep to it. It’s for emergencies only.
Time management

- EMAs have fixed deadlines. The cut off is noon on the deadline day (there is a grace period with no penalty until midnight)
- Tutors cannot authorise extensions
- Extensions are extremely rare and only for serious unexpected extenuating circumstances, e.g. hospitalisation.
- It is YOUR responsibility to make sure you know your deadline and plan appropriately
Poll time

Do you know whether your EMA involves additional activities other than the main questions?

• It doesn’t
• Yes I think so, not sure yet
• Yes it does, I have a clear idea of what they are
• Yes it does, I am well on the way to doing them
Planning to complete it all

- Some EMAs are a series of questions just from one EMA document, others require you to undertake activities from a variety of places and combine them together at the end.
- You need to ensure you complete all parts of the EMA.
- There may be different amounts of time to dedicate to different questions – look at marks available.
Planning logically

- This links to time management, but don’t spend as much time on a 3 mark question as on a 30 mark question, it isn’t worth it.
- Use the number of marks as an indication of how much is needed.
Poll time

How much is your EMA worth in terms of your overall assessment? Please use the short answer poll pod to say
TMA V EMA

• In many modules the EMA is worth more of the summative marks, e.g. the marks that count towards your final grade than any single TMA

• TMAs and EMAs are different, although TMAs will build towards the EMA.

• EMAs are looking for a higher level of understanding that TMAs, they are after all assessing the WHOLE module
Poll time

Assuming you have looked at your upcoming EMA can you see a way that it is different from the TMAs you have done?
How might the EMA be different?

Some of our suggestions:

• More questions
• Less didactic instructions
• More mixed style questions (using several skills)
• Using information from various places within the module
• Might involve an activity e.g. search, evaluation, project
• Usually won’t be marked by your allocated tutor
• Feedback is limited
EMA / emTMA

- EMA is an end of module assignment
- emTMA is an end of module TMA
- They differ somewhat – mainly in who marks them – emTMA is your own tutor
- Marks for both come at the very end of the module with your final module grade
EMA marking

• This is done by experienced tutors but not your allocated tutor.
• The marker will not know you.
• You have to be crystal clear and signpost your answer.
• You can’t expect the marker to ‘just know’ what you mean.
• You need to signpost to show your understanding.
• Markers will mark a large number of scripts in a short time so you need to make it clear and easy for them to award you the marks.
Reading the question

Reading and answering the actual question is crucial when tackling any essay

- Read out loud
- Underline key words
- Make the title into a question (but don’t change the question in the process)
These are the instructions that tell you what you need to do:

- Describe
- Explain
- Critically analyse
- List

We strongly recommend the studenthome > study skills resources here -
https://help.open.ac.uk/understanding-the-question
Considering material

What information are you going to need to find out? What does the question assume in terms of knowledge?

• Think definitions
• Think facts
• Think what might need to be included
Don’t worry!

- Unpacking the question involves coming up with things that you might need to find out and then considering the material is what that might be.
- You aren’t expected to know everything before you even start!
What is drafting?

• Drafting is writing your answer
• There can be a tendency to spend a lot of time collecting information and the actual writing can then be delayed
• There can also be a tendency to go straight onto writing without a plan.
• https://help.open.ac.uk/drafting-your-answer gives some advice including the fact that a plan gives you the road map to follow so you don’t get distracted and write about the wrong thing.
What are you writing about?

• Make sure you keep going back to the questions and use the learning outcomes to help as well

• These can give you clues about the type of information that will be required
What is editing?

• It’s taking your draft answer and making sure it is fully meeting the criteria that are set
• It’s making sure you haven’t gone off on a tangent
• It’s making sure you haven’t missed anything out
• It’s making it the best answer possible that convinces your reader that you understand what you are writing about
Writing in your own words

- When writing your answer from your notes think about how you made those notes.
- If you copy out sections from your module text you will need to make sure that you are rewriting correctly and fully in your own words.
- https://learn1.open.ac.uk/course/view.php?id=100043 is a site about developing good academic practices and takes you through how to write in your own words, as does http://www2.open.ac.uk/students/skillsforstudy/writing-in-your-own-own-words.php
Discussion activity

• There will be 2 specific questions in chat pods for you to explore some of the elements we have discussed further.
• The best thing I have done in my module so far that will help with my EMA is…
• To achieve the best mark in my EMA I am going to…
• You are welcome to add your thoughts and we will then pick up some of the themes and talk through them.
• Chat does have names on but the recording will be anonymised so you will appear as ‘user number’
Take home message

• EMAs are different to TMAs but you are still ‘at home’ so they work as a seen exam
• There are different rules to them
• They are covering the entirety of the module you have been studying so will require a holistic approach
Final polls

What do you feel are the main things you will take away from this session?

• Better understanding of today’s topic
• Better understanding of the place of study skills within university study
• Enthusiasm for my studies
• Enthusiasm for my skills development
• Feel part of the university
• Feel part of SHL

If you have any other feedback please send to studenthub@open.ac.uk
Upcoming 2022 sessions

6th Sep 11am Managing my time
13th Sep 11am Effective communication
20th Sep 7pm Academic writing
28th Sep 11am Academic writing

20th Sep 11am & 2pm (re)freshers orientation
22nd Sept 11am (re)Freshers Orientation | Becoming a confident academic learner
