- No (didn't have time)
- No (wasn't aware of before now)
- Yes any post summer 2021
- Yes any earlier

# student hub live online sessions?

- All student hub live sessions are non modular and focus on skills relevant to study at university level
- Polls are anonymous to other participants but the chat box will have your logged in name associated with your comments during the live session.
- All online sessions are recorded and available to view on catch up on a public facing website.
- Slides are available to download during the session(not accessible on mobile devices) and from <u>http://studenthublive.open.ac.uk/</u>.

#### student hub live is the OU's live online interactive platform to support academic community

Isabella Henman is an essay writing aficionado and skills trainer and has been the main student hub live online speaker since 2017. She tutors in science and health sciences at Access to level 2.

### Workshop

- This is going to be a structured workshop covering some of the basics about how to manage time when studying at the OU
- We'll give some tutor advice about strategies for help you not to fall behind and give some suggestions about how to get back on track if you do
- There is a lot of interaction so please be ready to answer polls (questions) or add to chat pod during the session
- You'll also get the chance to discuss things with others in a small group

# Small groups

- This session has been planned with a small group activity (breakout room)
- This is where you can exchange ideas with other students rather than just hearing from us
- Please make sure you have done the audio and speaker set up now so you are ready for when that begins (note microphones are not active now)

#### Session purpose

#### • <u>Is for:</u>

- Covering general time management information
- Give some guidance about ways to manage time
- Provide a space to share ideas and connect with other students
- <u>Is not for:</u>
- Telling you what you HAVE to do
- Providing any module specific advice

#### Please be aware

- These sessions are large scale
- They are very busy
- There is lots of interaction
- They are not the same as other tutorials
- You can maximise slides on your own screen by clicking the icon

# Initial poll

- What is your main reason for coming along to this session? Please choose the option that fits for you today:
- Study skills for current module(s)
- Study skills for future module (s)
- Connecting with other students
- Gain new ideas
- Responding to recommendation from tutor
- Curious about what studenthublive is

# Time management

#### 

Time management is the most common challenge for OU students, who are often juggling other responsibilities alongside their studies. In this workshop we'll teach techniques and frameworks to help you plan your workload more effectively. You'll also have an opportunity to discuss life and study hacks with fellow students in small groups.

#### student What do you want to learn?

Using the short answer poll provided please say what you are hoping to learn from today's session

(If you are on a mobile device remember you need to tap into the polling option)

To come back to these slides after completing a poll click on the share pod slides icon

## First thoughts

student

Which of the following do you normally use to keep track of things you are doing in every day life?

- Diary
- Wall calendar
- Online calendar
- App for tasks
- Sticky notes
- No specific method I am good at remembering ©
- No specific method I always forget things ☺

### We recommend!

- Some form of visible calendar and active reminders
- If possible print out your module calendar and stick it up somewhere obvious so you can see it
- Often in Module > resources or week 0/1
- The online module planner is great but won't actively remind you of anything (dates will show up but you have to look)

#### student Time management resources

- <u>https://help.open.ac.uk/time-management-skills</u>
- There are lots of resources available for time
  management
- Be realistic and balance what you want to achieve
- Balance time available, effort needed and eventual outcome
- Sometimes planning will help save time, other times just getting on will be the most efficient option

#### Tools available

- Showcase of the different options including activity template for week, hour by hour planner, foursquare priorities, Gantt chart broad allocation per activity
- (if too small remember you can make the slides full size on your own screen )

### Poll time

student

Please indicate which of these you think might be something you would try:

- Weekly activity planner
- Day and hour planner
- Foursquare chart
- Gantt style (time allocation) chart
- Detailed weekly planner

Please use the short answer poll to give any further information about the tools and your thoughts

# Setting priorities

student

How good would you say you are at setting (and keeping to) priorities in general?

- Great
- Good
- OK
- Not so good
- Always get distracted by fun things!

### **Strategies**

- Little and often is better
- Trying to study for 3 hours without a break will be counterproductive and you will probably end up tired and fed up with it all!
- Factor in breaks
- Reward yourself for successful study

 Can you think of anything that might affect your ability to study when and for as long as initially planned? Please use the short answer polling pod to give your suggestions

- Illness yours or dependants
- Extra paid work to do
- Family issues e.g. children's exams, attending school trip...
- Technical issues e.g. broadband down / computer breaks / house flooded...

#### Support

- Carers network & declare caring responsibilities
- Student support team
- Mental health support and well being <u>https://help.open.ac.uk/mental-health-support</u>

#### Foreseeing...

#### Foreseeing...

 Obviously we don't expect you to foresee the future

#### BUT

- Some things can be planned for and therefore shouldn't disrupt your study plans unexpectedly
- Planned holidays are not unexpected
- Religious festivals such as Diwali, Christmas, Eid and Hanukah are not unexpected so you need to plan for them if you will have time off

#### **Be prepared**

 It is always better to over plan to begin with than expect everything to magically work and then get stressed

# **Discussion activity**

- Discuss as a group your best tips on how to manage time effectively
- Please bring back a few points that you can share with the rest of the group
- We can then try and discuss some of the common points
- You do not have to speak on mic if you don't want to but please do interact with your group using the chat option

#### student Useful points for breakouts

- We suggest you use the first couple of minutes to introduce yourselves and get used to the room. Choose a volunteer to keep the discussion on track and feed back to the main room
- If you want to speak you will need to activate your microphone once in the room and you see the option available

A

Meeting

- Breakout groups work best if people engage and contribute and discuss
- There will be ~10 minutes for the breakouts overall we'll send regular reminders to let you know how long you have got left

Remember to check the number of the room you are in (shows at top of chat pod as "chat x **<u>BREAKOUT</u> y**") in case of connection issues and for bringing back information.

# This session is currently in breakouts (small groups). If you are part of this group and have had

connection issues please let us know your room number in the chat box

If you are only just arriving in this room then unfortunately you have missed the main session. Please log back out and watch the recording which will be available later today

student

 What can people share from their sessions?
 Please use either the chat pod or the anonymous short answer polling pod

# Student Multive Alternative discussion activity

- There will be 2 specific questions in chat pods for you to explore some of the elements we have discussed further.
- I manage my time well when....
- I could manage my time better if I...
- You are welcome to add your thoughts and we will then pick up some of the themes and talk through them.
- Chat does have names on but the recording will be anonymised so you will appears as 'user number'

#### studenti When time runs out...

- Look at what is most important and focus on that
- Prioritise the tasks according to what you will gain marks for or need for professional development
- If something unexpected and unavoidable occurs then you may be permitted an extension on a TMA (NOT ICMA / EMA) deadline so talk to your tutor

## Take home message

- Time management works best if you prepare well and are realistic about the time you have available and what you can personally get done
- Think about what is important to you and what you hope to achieve
- Short term pain long term gain

# Final polls

student

What do you feel are the main things you will take away from this session?

- Better understanding of today's topic
- Better understanding of the place of study skills within university study
- Enthusiasm for my studies
- Enthusiasm for my skills development
- Feel part of the university
- Feel part of SHL

If you have any other feedback please send to <u>studenthub@open.ac.uk</u>
